

OH GOD lyrics by Ray Williams

Oh God Dear Father I love you

There is No one above you

You gave To me the freedom

To love With all my heart

All across the world they're singing

Praises to the Lord our God and King

Soon's the day you know that He is coming

We'll be by His side

I know You know I love you

I love No one above you

You are For me the reason

I love With all my heart

Hear the voices raised together

Listen to the praise of God forever

Soon's the day you know that He is coming

To be with His bride

All across the world they're singing

Praises to the Lord our God and King

Soon's the day you know that He is coming

We'll be by His side

Oh God Dear Father I love you

There is No one above you

You gave To me the freedom

To love With all my heart

I know You know I love you

I love No one above you

You are For me the reason

I love With all my heart

I know You know I love you

I love With all my heart
